- Page 5 Column 1 Line 6—‘cause’ should read ‘course’; the resulting sentence should read:
He declared that a fever from water of the brain is easily distinguished from others by attending to the whole course of the disease and particularly to the pulse ... at first quick ... slow and irregular ... (p. 30) [3] ...and lastly acquires a greater frequency than ever. Besides, the screaming, squinting, and dilatation of the pupils rarely occur in other fevers (p. 31) [3].
- Page 5 Column 2 Line 15—‘retired’ should read ‘returned’; the resulting sentence should read:
His health declined in 1825 and in 1831 he returned to Sherrington in Buckinghamshire, where he died in 1836.
- Page 5 Column 2 Line 23—‘Table 1’ should read ‘Table 2’; the resulting sentence should read:
As Table 2 (after Price) [5] shows, in Dublin in 1936, the commonest cases occur between 9 months and 2 years.
