The original version of this article unfortunately contained a mistake. The authors failed to include a reference to the Master Thesis on which the article is based, as well as to the funding institutions and supervisors of the research. The omitted information is provided below.

This article is based on the Master Thesis (submitted March 2011) “Modelling the Effect of Predicted Sea Level Rise on

Tourism Facilities Along the Coast of Accra, Ghana” by Kate Sagoe-Addy. The work for the Thesis has been undertaken as part of a program of study at the Faculty of Geo-Information Science and Earth Observation of the University of Twente, Enschede, the Netherlands and the Faculty of Renewable Natural Resources of the Kwame Nkrumah University of Science and Geo-information Science and Earth Observation, Kumasi, Ghana.

The work was supervised officially by Drs. J.M. Looijen, Mr. J. Ayer, Mr. L. Addae-Wireko and scientifically supported by Dr. K. Appeaning Addo and Drs. M. Damen.

The online version of the original article can be found at <http://dx.doi.org/10.1007/s11852-012-0227-y>.
