Foreword

Part A of this volume consists of papers contributed by participants of the conference on *Exponential Sums* held at the Institute of Mathematics, The Hebrew University of Jerusalem between January 11–15, 1998. The conference was organized by R. Livné, S. J. Patterson and P. Sarnak, and supported mainly by the Landau Center for Research in Mathematical Analysis (a Minerva center).

The papers do not necessarily duplicate the talks given at the conference. They were submitted by the authors afterwards, and refereed according to the usual procedures of the Israel Journal of Mathematics.

Ron Livné
