McCarter SJ, St. Louis EK, Boeve BF: **REM Sleep Behavior Disorder and REM Sleep Without Atonia as an Early Manifestation of Degenerative Neurological Disease.** *Curr Neurol Neurosci Rep* 2012.

The abovementioned article was published online first on February 11, 2012 for the April 2012 issue of *Current Neurology and Neuroscience Reports* (volume 12, issue 2).

On page 184, the following *italicized* wording and reference citation were incorrect:

Due to the violent nature of dreams, injury often results in the form of bruises, head contusions, hair pulling, or fractures

[2•, 6, 9], and *recently a single fatality caused by strangling of a patient's bed partner has been reported as resulting from RBD [1]*.

The correct wording and reference should be the following:

Due to the violent nature of dreams, injury often results in the form of bruises, head contusions, hair pulling, or fractures [2•, 6, 9], and *recently potentially lethal behaviors have been reported as resulting from RBD [97]*.

Reference 97: Schenck CH, Lee SA, Cramer Bornemann MA, Mahowald MW. Potentially lethal behaviors associated with rapid eye movement behavior disorder: review of the literature and forensic implications. *J Forensic Sci* 2009; 54 (6):1475–1484.
