The authors have found typing mistakes in Abstract and Table 1. All other data and statistics have been re-checked and confirmed. The necessary corrections are as follows:

Abstract Section:

In the sentence “Serum and urinary zinc levels were found as 14.90 ± 0.90 and 102 ± 4.7 $\mu\text{g/dL}$ in workers while 12.87 ± 1.45 and 75 ± 4.2 $\mu\text{g/dL}$ in controls, respectively (both, $p < 0.05$).”

- 14.90 ± 0.90 should be replaced with 102.43 ± 4.74
- 102 ± 4.7 should be replaced with 0.66 ± 0.05
- 12.87 ± 1.45 should be replaced with 75.45 ± 4.24
- 75 ± 4.2 should be replaced with 0.80 ± 0.08

Table 1, last 2 rows:

- 12.87 ± 1.45 should be replaced with 75.45 ± 4.24
- 14.90 ± 0.90 should be replaced with 102.43 ± 4.74
- 0.80 ± 0.37 should be replaced with 0.80 ± 0.08
- 0.66 ± 0.39 should be replaced with 0.66 ± 0.05
