The authors would like to indicate the below correction to the above referenced article.

In the section “Apparatus” first sentence: The word “lead” should be deleted. The correct sentence should read:

Measurement of trace elements was performed by a model Perkin-Elmer double-beam 2380 atomic absorption spectrophotometry (AAS) that adapted Perkin-Elmer hollow-cathode lamps and conventional 10-cm slot burner heat for an air-acetylene flame.

The authors regret the oversight.
