The paper entitled “Molecular Detection of *PPAR* γ Rearrangements and Thyroid Carcinoma in Preoperative Fine-Needle Aspiration Biopsies” by C.A. French et al. in Endocr Pathol 19:166-174, Fall 2008 was incorrectly listed as a contribution from the 2007 European Society for Pathology symposium “Controversial Issues in Thyroid Pathology”. It was in fact an independently submitted original research paper.

The online version of the original article can be found at <http://dx.doi.org/10.1007/s12022-008-9036-0>.
