Erratum to: Immunol Res DOI 10.1007/s12026-013-8427-6

The following errors were inadvertently overlooked in the original publication, and it has been corrected with this erratum.

1. Unfortunately, Dr. Einar Rosenqvist was missed in the authorship of the original publication and included him here as a co-author (in eight place) with his affiliation.
2. On page 2, under the section “**Materials and Methods**” and subsection “**Antigen, outer membrane**

The online version of the original article can be found under doi:[10.1007/s12026-013-8427-6](https://doi.org/10.1007/s12026-013-8427-6).

vesicles and vaccine” the last sentence should be read as follows:

MenAfriVac^{TM}, freeze-dried conjugate vaccine bound to tetanus toxoid, was supplied by the Serum Institute of India, Pune, India.

3. On page 3, under the section “**Materials and Methods**” and subsection “**Bactericidal assay to determined functional activity of antibodies**” the first line should be read as follows:

Evaluation of bactericidal assay (SBA) was performed by the “tilt method” against Mk499/03 serogroup A strain as previously described (16, 21).

4. On page 10, under the section “**Acknowledgement**” the last sentence should be read as follows:

Also, we would like to thank the NFR GLOBVAC project “Development of an outer membrane vesicle vaccine for Africa, against serogroup A and W135 meningococcal disease” Project number: 192477 and Dr. Gunnstein Norheim, Dr. Lisbeth Naess, and Dr. Gro Turheim from Division of Infectious Disease Control, Norwegian Institute of Public Health, Oslo, Norway, for supporting the OMV from serogroup A and W135 production and characterization.
