Erratum:

This correction is in reference to the following article:

Rose, J. C., Mayer, S. A. Optimizing Blood Pressure in Neurological Emergencies. *Neurocrit Care* 2004;1:287–299.

On page 290 of *Neurocritical Care*, volume 1, issue 3, 2004, two of the dose units in Table 1 were mistakenly listed as mg/kg/min when they should have been mcg/kg/min. The correct information is as follows:

Drug:	Dose:
Fenoldopam	0.1–0.3 mcg/kg/min infusion
Nitroprusside	0.25–10 mcg/kg/min infusion
