Retraction Note to: Med Oncol (2015) 32:85 DOI 10.1007/s12032-015-0540-z

This article has been retracted by the authors as it was discovered that duplication of several key experiments described herein were not possible because: The difference

between acidification of culture medium in si-Ctrl group and si-ACLY could not be observed and the results of lactate production and glucose consumption could not be repeated. The authors regret any confusion caused.

The online version of the original article can be found under doi:[10.1007/s12032-015-0540-z](https://doi.org/10.1007/s12032-015-0540-z).
