The original version of this article unfortunately contained a mistake.

The sentence “This has lead not only to a discrepancy between methodological procedures and the philosophical underpinnings of a given approach but also to a so that disparate and” found in the second paragraph of section “Perils of Qualitative Research in Psychology” should read:

This has lead not only to a discrepancy between the methodological procedures used for analysis and the philosophical underpinnings of a given approach but also to a combination of disparate and sometimes dissonant approaches.
