Erratum

Erratum to “Solar radiation assisted mixed convection MHD flow of nanofluids over an inclined transparent plate embedded in a porous medium” [28 (9) (2014) 3885~3893][†]Meisam Habibi Matin^{1,*} and Reza Hosseini²¹*Department of Mechanical Engineering, Kermanshah University of Technology, Kermanshah, Iran*²*School of Mechanical Engineering, Amirkabir University of Technology, Tehran, Iran*

In the original article, the following typos have to be corrected in the text. The correct relation for Richardson number

is $\frac{Gr}{Re^2} = \frac{g(T_w - T_\infty)\beta_f x}{u(x)^2}$. Also, in Eq. (17) the symbol D_p should be used instead of d_p and throughout the paper q''

should be replaced by q_{rad} .
