Erratum to: School Mental Health (2014) 6:201–212 DOI 10.1007/s12310-013-9114-4

The original version of this article unfortunately contained two mistakes.

On page 206, the last sentence of the paragraph titled “Exposure to NSSI and Education Needs” should read as “Interestingly, among school mental health workers, less than a third (22.9 %) had never received education, and

75.4 % felt they needed education in NSSI”. The word “never” was missed in the original publication.

On page 204, the last line of the paragraph titled “Data Analysis” should read as “245 participants was required fewer than our sample of 501”. “513” in the original publication should have read as “501”.

The authors regret the inconvenience caused in this regard.
