Erratum

External K⁺ Deficiency Inhibits Photosynthetic Activity Through Superoxide Anion Production in Protoplasts Isolated from the Thallus of *Ulva pertusa*

Chang-Hyo Goh, Soon-Ja Oh, Sung-Soo Jun and Taejun Han

At Volume 53, page 158, there are errors in Table 1. Therefore, it is replaced with the following Table.

Table 1. Photosynthetic activity^a of *Ulva* protoplasts at different external pHs

	Media pH			
	6.1	6.8	7.8	8.8
Activity ^b	12.74±0.54	11.66±0.47	9.21±0.46	8.33±0.83
