**Erratum to: Arab J Geosci (2015) 8:8583–8600
10.1007/s12517-015-1796-5**

The original version of this paper, unfortunately, contained errors.

The following are the necessary updates needed.

1. In the abstract section

The texts:

The coral assemblages are relatively diverse and represented by the genera *Isastrea*, *Cosmophyllia*, *Edwardoseris*, *Kobymeandra*, *Dimorpharaea*, and *Polystylidium*, in addition to other branching forms.

Should be replaced by:

The coral assemblages are relatively diverse and are mainly represented by forms comparable with *Isastrea*, *Microphyllia*, *Montlivaltia*, *Dendraraea*, *Cladophyllia* and other branching forms.

2. In corals part, p. 8593

The text:

Corals are relatively diverse and are mainly represented by forms comparable with *Isastrea*, *Comophyllia*, *Edwardoseris*, *Kobymeandra*, *Dimorpharaea*, *Polystylidium*, *Montlivaltia*, *Dendrarea*, *Cladophyllia*, and other branched forms which

can be compared to *Acropora* (according to B. Lathuilière, preliminary determination) and correspond to the typical composition of Lower Bajocian reef communities (Lathuilière 2000a, b)

Should be replaced by:

Corals are relatively diverse and are mainly represented by forms comparable with *Isastrea*, *Microphyllia*, *Montlivaltia*, *Dendraraea*, *Cladophyllia* and other branching forms. They seem to be close of the typical composition of Lower Bajocian reef communities (Lathuilière 2000a, b).

3. In the conclusion, p. 8597

The texts:

The most abundant genera are *Isastrea*, *Comophyllia*, *Edwardoseris*, *Kobymeandra*, *Dimorpharaea*, *Polystylidium*, and *Montlivaltia*.

Should be replaced by:

Genera comparable to *Isastrea*, *Microphyllia*, *Montlivaltia*, *Dendraraea* and *Cladophyllia* have been observed.

4. In the Acknowledgments, p. 8597

Because Prof. B. Lathuilière did not accept the acknowledgment, the following line should be removed:

Special thanks to Prof. B. Lathuilière (Nancy University, France) for preliminary determinations of some coral specimens.

5. In Fig 10 m caption, p. 8593: *Chomatoseris* should be replaced by *Montlivaltia*
