Erratum to: Archaeol Anthropol Sci
DOI 10.1007/s12520-015-0235-6

The discriminant function in the original version of this article has an error that is hereby being corrected. The change does not affect the results presented in the paper, but allows for the successful application of the discriminant function in future research.

The new discriminant function, based on the unstandardized canonical discrimination function coefficients, is $DF = -46.628 + 4.079 \cdot \text{Aspect Ratio} + 32.887 \cdot \text{Circularity} + 10.667 \cdot \text{Roundness} + 17.560 \cdot \text{Solidity} + 0.420 \cdot \text{Shape} - 6.378 \cdot \text{Rectangularity} - 14.490 \cdot \text{ModRatio}$. The variables included in the function remain the same.

The online version of the original article can be found at <http://dx.doi.org/10.1007/s12520-015-0235-6>.
