RETRACTION NOTE

Retraction Note: Microstructural Evolution of AA7449 Aerospace Alloy Refined by Intensive Shearing

R. Haghayeghi

Retraction Note to: *Met. Mater. Int.* Vol. 18, No. 5, pp. 777-782 (2012)
doi: 10.1007/s12540-012-5005-8

The editorial board of Metals and Materials International has decided to retract this article. The retraction is due to the fact that the same data has been used in this paper as in a previously published paper without indication that the data had been published previously. Originally the authors of the paper were R. Haghayeghi and L. Nastac. Following the request from the second author indicating that he did not contribute to the paper and did not consent to being included in the author list either, the editorial board of Metals and Materials International has decided to remove the name of the second author, L. Nastac from the author list, with the first author, R. Haghayeghi's consent.
