Erratum to: Neurotox Res DOI 10.1007/s12640-017-9756-3

The original version of this article unfortunately contained two mistakes. In the **Methods section**, fourth sentence under subheading “**RNA Extraction and Quantitative RT-PCR**” and in Table 2, penultimate line, second row, the commercial Qiagen ref. for the TNF- α RT²-qPCR primer set was errone-

ously given as **PPR42247F**. The corrected ref. is **PPR06411F**. The correct Table 2 is now presented on the next page. In the **Methods section** under subheading “**Image analysis**”, in the third sentence indicating the area of microscopic fields ($6 \times 10^4 \mu\text{m}^2$ area), the superscript number was erroneously given as **4**. The correct superscript number is **5**, it should be ($6 \times 10^5 \mu\text{m}^2$ area). The authors apologize for any confusion these errors may have caused.

The online version of the original article can be found at <http://dx.doi.org/10.1007/s12640-017-9756-3>
