The Editor-in-Chief has decided to retract this article. Upon thorough investigation carried out according to the Committee on Publication Ethics guidelines it has been found that the article duplicates large text blocks, some figures and the general structure and conceptualization of

the underlying model from the thesis of Philip Andreas Brunner: Water and salt management in the Yanqi Basin, China. ETH (2005). <http://dx.doi.org/10.3929/ethz-a-005144054> without proper attribution. The authors have agreed to the retraction.
