Published online: 13 June 2014
© Springer-Verlag Berlin Heidelberg 2014

Erratum to: Environ Earth Sci DOI 10.1007/s12665-013-3020-9

In the original article, the value of pH (7.6–8.6) and the subsequent sentence given in the Abstract are an accidental typographical error and not representing the actual result of the study. It must read as “The pH of sediment was relatively high in the coral reef compared to the seagrass area, indicating that the coral reefs of this area are not currently under the threat of ocean acidification”.

The online version of the original article can be found under doi:[10.1007/s12665-013-3020-9](https://doi.org/10.1007/s12665-013-3020-9).
