This paper has been retracted on the combined grounds of disputed authorship and inaccurate data. An investigation by the National Bureau of Fish Genetics Research confirms that the work was conceptualized by another researcher not included as co-author, while investigation

by the journal reveals systematic errors (higher number of repeats) reported in 10 loci of the 26 submitted to NBCI and published in the paper. Dr A. Gopalakrishnan has withdrawn authorship from the paper. D. P. Singh has assumed the role of corresponding author from W. S. Lakra.
