Erratum to: Genes Genom DOI 10.1007/s13258-016-0394-6

Unfortunately, the original version of this article contains a few errors. Figure 2 in the original publication, *qSTH-2* and *qSTH-8* is quite displaced, and the arrow for *qSTH-8* is not shown. The corrected figure is shown in this erratum.

Moreover, the third author, Hesham Agrama, has added another affiliation. His additional affiliation is: Department of Crop Sciences, College of Agricultural and Marine Sciences Sultan Qaboos University P.O. Box 34, Alkhoud 123, Oman.

The online version of the original article can be found under doi:[10.1007/s13258-016-0394-6](https://doi.org/10.1007/s13258-016-0394-6).

Fig. 2 Composite interval mapping of chromosomes 2 (a) and 8 (b) indicating the position of two straighthead resistant QTLs, a *qSTH-2* and b *qSTH-8*. Significant threshold of the logarithm of odds (LOD) was 3.50 for the detection of putative straighthead resistance QTL. The peak LOD values were 5.73 for *qSTH-2* and 12.34 for *qSTH-8*. Distance scale (in cM) of each chromosome is shown to the left of the graph
