RETRACTED ARTICLE: Tumor Biol.
DOI 10.1007/s13277-015-4365-3

This article has been retracted at the request of the Editor-in-Chief, the International Society of Oncology and BioMarkers (ISOBM) and the Publisher per the Committee on Publication Ethics guidelines. The article shows evidence of irregularities in authorship during the submission process, there is strong reason to believe that the peer review process was compromised and the article is showing similarities, which have been paraphrased for a large part, with the following article:

Lata Singha, Neeru Sainib, Sameer Bakhshic, Neelam Pushkerd, Seema Sena, Anjana Sharmae, Jasbir Kaurf,

Seema Kashyapa, Prognostic significance of mitochondrial oxidative phosphorylation complexes: Therapeutic target in the treatment of retinoblastoma. *Mitochondrion*. 2015; 23 55-63

As such the validity of the content of this article cannot be verified.

The online version of this article contains the full text of the retracted article as electronic supplementary material.

Electronic supplementary material The online version of this article (doi:10.1007/s13277-015-4365-3.) contains supplementary material, which is available to authorized users.
