This article has been retracted at the request of the Editor-in-Chief, the International Society of Oncology and BioMarkers (ISOBM) and the Publisher per the Committee on Publication Ethics guidelines. The article shows evidence of irregularities in authorship during the submission process, there is strong reason to believe that the peer review process was compromised and the discussion section of the article shows similarities, which have been for a large part paraphrased, with the results section published in the following article:

Feng M, Wang Y, Chen K, Bian Z, Wu J, et al. (2014) IL-17A Promotes the Migration and Invasiveness of Cervical Cancer Cells by Coordinately Activating MMPs Expression via the p38/NF-κB Signal Pathway. PLoS ONE 9(9): e108502. doi: 10.1371/journal.pone.0108502

As such the validity of the content of this article cannot be verified.

The online version of the original article can be found at <http://dx.doi.org/10.1007/s13277-016-4882-8>.
