A careful analysis of the article has revealed that the same article was submitted by the first author and published in the “Carpathian Journal of Earth and Environmental Sciences” in February 2013 (Vol. 8. No. 1, 207–216), however under the title “ASSESSMENT OF ATMOSPHERIC LEAD CONTAMINATION OF BANKS SOILS USING SOILS TAMARISK GROVE. CASE STUDY OF THE KEBIR RHUMEL (ALGERIA)”. The Editor-in-Chief and the Publishing Editor also discovered that the manuscript was submitted without the knowledge and approval of the second senior author. The Editor-in-Chief and the Publishing Editor have therefore decided to retract this article.
