In the original publication of the article under Introduction, the sentence in the second paragraph that reads as, “Therefore, none of the existing studies...Westerners” should read as, “Therefore, none of the existing studies on crowd emotion perception allows us to directly compare potential differences between Easterners and Westerners in extracting crowd emotion from groups of faces of Easterners vs Westerners.”

The original article can be found online at <https://doi.org/10.1007/s40167-017-0054-y>.
