The article **Milnor K_2 and p -adic zeta functions for real quadratic fields** by J. Park was supposed to appear in Volume 40, special issues on the occasion of the 60th birthday of Glenn Stevens.

Due to an editorial oversight, the paper was not included in that volume, and instead appears in Volume 41. The editorial board and the publisher would like to apologize for that oversight.

This editorial refers to the original article available at doi:[10.1007/s40316-017-0079-9](https://doi.org/10.1007/s40316-017-0079-9).
