Directive 2001/29/EC, Article 5(3)(n) – *Technische Universität Darmstadt v. Eugen Ulmer KG*

**Decision of the European Court of Justice (Fourth Chamber)
11 September 2014 – Case No. C-117/13**

© Max Planck Institute for Innovation and Competition, Munich 2014

1. The concept of ‘purchase or licensing terms’ provided for in Article 5(3)(n) of Directive 2001/29/EC of the European Parliament and of the Council of 22 May 2001 on the harmonisation of certain aspects of copyright and related rights in the information society must be understood as requiring that the rightholder and an establishment, such as a publicly accessible library, referred to in that provision must have concluded a licensing agreement in respect of the work in question that sets out the conditions in which that establishment may use that work.
2. Article 5(3)(n) of Directive 2001/29, read in conjunction with Article 5(2)(c) of that directive, must be interpreted to mean that it does not preclude Member States from granting to publicly accessible libraries covered by those provisions the right to digitise the works contained in their collections, if such act of reproduction is necessary for the purpose of making those works available to users, by means of dedicated terminals, within those establishments.
3. Article 5(3)(n) of Directive 2001/29 must be interpreted to mean that it does not extend to acts such as the printing out of works on paper or their storage on a USB stick, carried out by users from dedicated terminals installed in publicly accessible libraries covered by that provision. However, such acts may, if appropriate, be authorised under national legislation transposing the exceptions or limitations provided for in Article 5(2)(a) or (b) of that directive provided that, in each individual case, the conditions laid down by those provisions are met.
