Germany

“Partially Reflecting Sheeting” (Teilreflektierende Folie)

**Decision of the Federal Supreme Court (Bundesgerichtshof)
15 September 2015 – Case No. X ZR 112/13**

European Patent Convention, Art. 87(1)

© Max Planck Institute for Innovation and Competition, Munich 2016

Keywords Priority · Earlier application · Specification of a range · Embodiment of an invention in an earlier application

The priority of an earlier application that contains the specification of a range can in any event be validly claimed if the subsequent application claims an individual value or subrange within such range that is disclosed as a possible embodiment of the invention in the earlier application.
