This issue of the Bollettino dell'Unione Matematica Italiana contains articles originated from invited talks at the Congress of the Unione Matematica Italiana held in Siena, September 7–12 2015 and, together with Issue 1 of this volume, completes this overview of some of the most active mathematics research areas in Italy. We warmly thanks all the Authors and the members of the scientific committee of the Congress: Marco Abate, Franco Brezzi, Italo Capuzzo Dolcetta, Ciro Ciliberto, Susanna Terracini and Giuseppe Toscani.
