In table 3 “Individual allergens of other arthropods identified according to the IUIS Allergen Nomenclature Sub-Committee” (p. 176) in the segment *Chironomus thummi thummi* (red chironomid larvae)^{a, c, d, e, f} the haemoglobin component I/IA is attributed to the allergen Chi t 2, not to the allergen Chi t 1. The correct segment of table 3 should read as follows.

Christiane Hilger, PhD

Annette Kuehn
