Erratum

Title: Simultaneous Improvement of Energy Efficiency and Product Quality in PCB Lamination Process

Authors: You-Jin Park, Rong Pan, Connie M. Borrer, Douglas C. Montgomery, and Gyu-Bong Lee

Int. J. Precis. Eng. Manuf.-Green Tech., Vol. 1, No. 3, pp. 247-256, 2014

1.

The title of section 2.2 in page 248 should be modified as follows:

2.2 Energy Savings in PCB Manufacturing Process

2.

The section number 2.2 in page 249 should be modified as follows:

2.3 Optimization Problems in PCB Manufacturing Processes

3.

Right below the table 8 in page 253, the following equation should be added right after this sentence, which is ‘Consequently, the linear probability that a manufactured panel is non-defective can be represented as follows.’.

$$\pi(\mathbf{x}) = \frac{\exp(0.856 + 1.488x_1 - 1.789x_2 - 0.390x_3)}{1 + \exp(0.856 + 1.488x_1 - 1.789x_2 - 0.390x_3)}$$

4.

Left below the line 8 in page 253 should be modified as follows:

We will provide the results of our optimization approach and conclusions in Section 5 and 6, respectively.
