In the Preface of the first issue of the *Italian Economic Journal* the references were missing concerning the three volumes providing the English translation of important articles originally published in Italian. The second sentence in the second paragraph (p. 1) should read as follows:

SIE, in the meantime, published in English three volumes—jointly at Oxford University Press, Oxford, and Il Mulino, Bologna—entitled *Italian Economic Papers, Volume I (1992), Volume II (1993), Volume III (1998)* of important articles originally published in Italian. They include Sraffa’s famous critique of the Marshallian theory of the firm, originally published in 1925 in *Annali di Economia*, and works by, among others, Barone, Pareto, and Pantaleoni, published in *Giornale degli Economisti*.
