Correction to:
Shap. Mem. Superelasticity (2017) 3:403–413
<https://doi.org/10.1007/s40830-017-0135-y>

We regret that a tribute, which was submitted with the original manuscript by the authors, in honor of Prof. Shuichi Miyazaki was unfortunately omitted during the publication process. The following should have been included with the published article:

Prof. Shuichi Miyazaki, we take great pleasure in our contribution of this paper on the occasion of your

retirement. You have been a master for all of us with your talks and papers. You have been a friendly and sympathetic colleague, as well as an outstanding researcher.

In particular, we would like to emphasize your broad and excellent work concerning NiTi and their applications in health solutions via Ti-based alloys, overcoming the contemporary prejudgment of Ni as biologically incompatible.

Dear colleague, we wish you a happy retirement and a long life in the company of your relatives and friends.

The original article can be found online at <https://doi.org/10.1007/s40830-017-0135-y>.
