In the original publication of the article unfortunately a typesetting mistake occurred. In the second line of Eq. 5 “1 −” is missing at the beginning. The correct equation reads:

$$ss = \begin{cases} 0.5, & 0.5 \leq intc \leq 1 \text{ (neutral area)} \\ 1 - intc, & 0 \leq intc < 0.5 \text{ (support area)} \\ 1 + intc, & -0.5 < intc < 0 \text{ (support area)} \\ 1 + intc, & intc = -0.5 \text{ (neutral area)} \\ 1 + intc, & -1 \leq intc < -0.5 \text{ (opposition area)} \end{cases} \quad (5)$$
