

Erratum

Iron Biominerals, Edited by R. B. Frankel and R. P. Blakemore, Plenum Press, New York, 1991, 0-306-43718-X

The figure on page 332 is incomplete. Below is the complete figure.

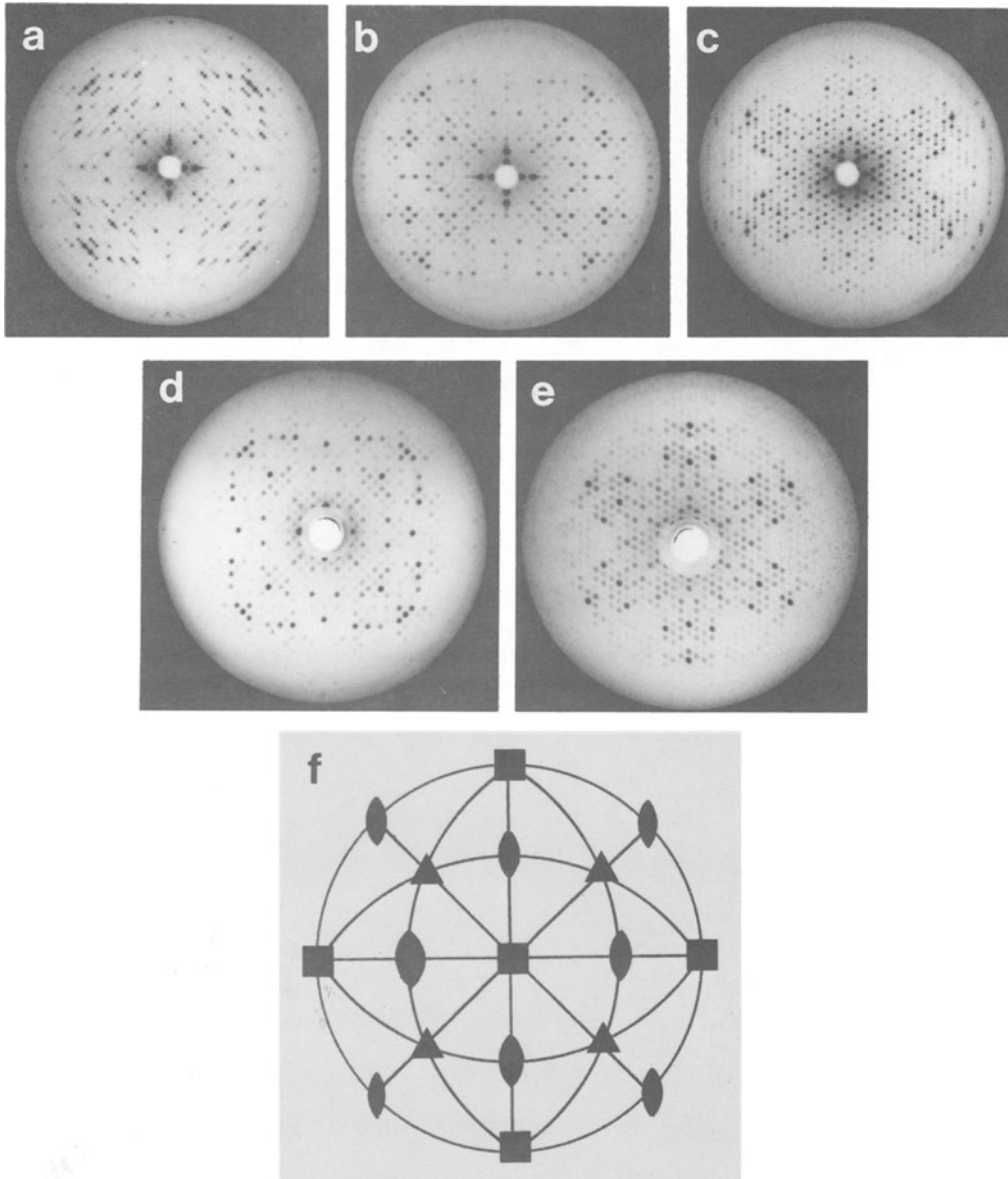

Fig.5 X-ray diffraction patterns of *E. coli* BFR crystals. Tetragonal form showing (a) 4-fold, (b) pseudo-4-fold and (c) pseudo-3-fold symmetry. Cubic form showing (d) 4-fold and (e) 3-fold symmetry. Note the close similarities of (a), (b) and (d) and of (c) and (e). (f) stereographic representation of 432 symmetry.
