# Acknowledgments

With deep appreciation I wish to acknowledge the contribution of my wife, Deborah; in compiling the manuscript, she helped me to overcome a limitation derived from the onset of my visual impairment. Special gratitude is extended to my former student and assistant Escandar Hadijizadeh, who prepared most of the ink drawings, and to the many others who contributed through telephone discussions and by sending reference materials. Among them are Dr. Anton Tedesko, Dr. David Geiger, Dr. Stefan Medwadowski (IASS), Jack Christiansen, Elwin C. Robison (Kent State University), William

Mouton (Tulane University), Edward Allen (Yale University), Charles Mitchell and Luz Aveleyra (UNC, Charlotte), Mohsen Sefat, Mrs. Felix Candela, D. J. Gross and James T. Langman (Roberts & Schaefer), David Kulla (Duke Power), and Donald Wright (Dow Chemical). I would like to express my sincere respect for Van Nostrand Reinhold editor Gene Dallaire and my gratitude for his trust in my work. I am very grateful to Joy Aquilino, also of Van Nostrand Reinhold, whose efforts made the completion of this book possible.
