

Correction to: Consilience, Truth and the Mind of God

Correction to: R. J. Di Rocco, *Consilience, Truth and the Mind of God*, <https://doi.org/10.1007/978-3-030-01869-6>

The book was inadvertently published with an incorrect ToC where Chapter 8 subchapter was not indented (Consilience, Truth and the Mind of God: A Synthesis). It is now corrected as

Recollection and Synthesis
 About the Universe-Multiverse
 About Logic
 About the Ontological Question
The Modified Argument from Truth

In Chapter 3, Page 35 in footnote, the K_B units symbol was wrongly published. This is now corrected as K_B has units of J/K so the right side of Eq 3.9, which is $(T) [K_B \sum p_i \log_b (p_i)]$, has units of $\circ K(J^\circ K) = J$.

Also, in Page 137 Chapter 8, missed to italicize the sub-quote.

The sub-quote encompasses “it is clear to every reasonable mind...which a greater cannot be thought. (Anselm’s Reply to Guanilo 8)”. This is now corrected.
