

ADDENDUM: "An Efficient Boundary Element Method for Calculating Green's Functions in Fracture Mechanics," D.J. Cartwright and D.P. Rooke\*

*D.J. Cartwright\*\**

*Engineering Materials, Department of Aeronautics and Astronautics  
The University, Southampton, England*

*D.P. Rooke*

*Materials and Structures Department, Royal Aircraft Establishment  
Farnborough, Hampshire, England*

The following acknowledgement was inadvertently left out of the referenced Report of Current Research.

*"Acknowledgement: This work was carried out with the support of the Procurement Executive, Ministry of Defence."*
