

ERRATUM

In the article of J. DOORENBOS and J. J. KAPER 'X-ray induced mutations in *Begonia* × *hiemalis*' (Euphytica 24 (1975) No 1 : 13-19) the legend under the colour plate opposite page 16 should read as follows:

A plant of clone So 1 (lower right), selected from the cross *Begonia tuberhybrida* 'Sonnenschein' × *Begonia socotrana*, and eight plants from cuttings of irradiated leaves of So 1, showing various mutations. From a yellow flowering plant similar to the one at the upper left the cultivar 'Tiara' was developed.
