

CORRIGENDUM

"Contradiction of  $J_k$  Integral," Kang Yong Lee, *International Journal of Fracture* 31 (1986) R53-R54.

Equations (1) and (3) on page R53 should read:

$$J_k = \int_{\Gamma} (Wn_k - T_i u_{i,k}) ds \quad (1)$$

$$J = [(1-\nu^2)/E] \sqrt{(K_I^4 + 6 K_I^2 K_{II}^2 + K_{II}^4)} \quad (3)$$

We regret the few typographical errors that crept into the published version of this Report, hoping they caused no inconvenience to the author or our readers.
