Maintenance of barley varieties	45	Prof. Broekema Farm, N.E. Polder	6
<i>Nicotiana</i> , cytogenetic studies in derivatives		<i>Prunus cerasus</i>	49, 161
of <i>N. rustica</i> × <i>N. tabacum</i>	227	Radish, effect of high temperature on in-	
NIJDAM, F. E., Director of the Foundation		compatibility	268
for Agricultural Plant Breeding at Wa-		<i>Raphanus sativus radicola</i>	268
geningen	200	Rootstock, selection for dwarfing rootstock	
Peas, identification of garden pea varieties		in cherries	49
in the seedling stage	237	Selection procedures of barley	47
<i>Phaseolus vulgaris</i>	90, 111	Semi-lethality in wheat	18
Photothermographs for climate studies	97	<i>Solanum lycopersicum</i>	26
<i>Pisum sativum</i>	237	<i>Solanum tuberosum</i>	38, 77, 106, 185, 189, 242
Plant pathology	199	Study Circle of Plant Breeding	8
Potato breeding in Russia	38	Tobacco, cytogenetic studies in derivatives	
Potatoes, cytology	43	of <i>Nicotiana rustica</i> × <i>N. tabacum</i>	227
difference in phenotypic expressions		Tomato, hybrid tomatoes	26
between genes R ₁ and R ₄ controlling		<i>Triticum vulgare</i>	18, 149, 169, 213
resistance to <i>Phytophthora infestans</i>	189	Vegetable varieties, photothermographs for	
distribution of aggressive populations of		climate studies	97
<i>Heterodera rostochiensis</i>	85	Wheat breeding in the Netherlands	149
Dutch Potato Atlas	198	complementary genes	22
genetics of resistance to potato root eel-		dwarfs, semi-lethals and lethals	213
worm of <i>Solanum tuberosum</i> subsp.		modifying genes	23
<i>andigenum</i> , clone C.P.C. 1690	242	monograph on <i>Triticum</i> species and varie-	
influence of extra R-genes on the resistance		ties in Spain	199
to corresponding P-races of <i>Phytophtho-</i>		reciprocal crosses	18
<i>ra infestans</i>	106	relationship	24, 219
inheritance of spraign resistance	185	selection methods in breeding for yield	169
list of potato parent stocks, 1957	198	semi-lethality	18
resistance to Colorado beetle	41	varietal range of spring wheat varieties	
blight	40, 106, 189	in the Netherlands, 1933-1956	158
eelworm	41, 77, 85, 242	varietal range of winter wheat varieties in	
<i>Epilachna</i>	41	the Netherlands, 1933-1956	157
frost	41		
virus	41		
wart	40		
variation in pathogenicity of the potato			
root eelworm	77		

ERRATUM

In the article of N. HUBBELING (*Euphytica* 6, 1957, p. 120) a correction should be made. In table 1. column Gamma, behind Michelite S should be changed into R.
