

**NOTE FROM THE PUBLISHER
REGARDING VOLUME CONTENTS LIST**

Starting with the 1987 journal programme D. Reidel will no longer publish a volume contents list at the end of the last issue of each volume, but instead publish an annual contents list in the last issue of the journal programme of each year, in cases where there is more than one volume per year.

This annual contents will be an integrated and alphabetical list in which all authors and their contributions are mentioned.
