

ERRATA

A. Achong, P. A. Stahl, and C. Nyack: 'SID Flares and Sunspot Morphology', *Solar Physics* **88** (1983), 137-153.

p. 140: In paragraph below Figure 1, eliminate second sentence.

p. 142: In last paragraph on page, final sentence corrected to read:

Since there is no significant difference between observed and predicted gradients for the lesser class, the null hypothesis must be accepted. However, this does not apply to the major class, for which there is no significant difference between gradients.

p. 147: Table VII - headings omitted. These should be identical to those of Table VI (p. 145).

p. 151: Third paragraph from top, should conclude:

... or γ (no bipolarity in evidence).

p. 152: 2nd paragraph from top (line 6) - (Severny *et al.*, 1979).

Third paragraph in 'Concluding Remarks':

4th line: ... exceeds 2×10^{-3} erg cm⁻² s⁻¹.

6th line: ... a very large spot (e.g. >1000 msh).

p. 153: References:

Parker, E. N.: 1979a: page should be 905.

6th from bottom, corrected to read:

Tanaka, K. and Nakagawa, Y.: 1973, *Solar Phys.* **33**, 187.
