Equation 7 and 8 on page 12 were unfortunately incorrect as printed.

Equation (7) should read:

$$A = C_a / [E(1 - (1 - \exp(-\mu_n d))^{B^\infty})] \quad (7)$$

and equation (8) should read:

$$A = C_p / [E(1 - (1 - \exp(-\mu_n (T - d)))^{B^\infty})] \quad (8)$$
