[2] Environmental Research Institute of Michigan, 1101 Wilson Blvd., Suite 1100, Arlington, VA 22209, USA
[3] Laboratory of Adaptive Sciences, National Institute of Neurological Disorders and Stroke, National Institute of Health, Bethesda, MD 20892, USA

The error bars on Figs. 3, 4, 5 and 7 are incorrect and should be ignored. The variance (and standard errors) of the ratio of the pre-training mean to the post-training mean cannot be computed correctly, because the covariance between the pre- and post-training groups is not available from the published data on *Hermissenda*.
