

Full details as to topics on which papers are solicited, deadlines for abstracts and papers, language requirements, and preliminary registration forms are contained in the First Circular copies of which are being distributed to economic geologists all over the world, including members of SEG? SGA? and IAGOD. Special arrangements have been made for distribution of the circular in Eastern Europe and the U. S. S. R. Anyone who has not received a first circular and would like to have one is most welcome to request a copy from the General Secretary whose address is:

Dr. C. B. Sclar, General Secretary
1978 IAGOD Meetings
Department of Geological Sciences
Williams Hall, Lehigh University
Bethlehem, PA 18015 U. S. A.

Eleventh Commonwealth Mining and Metallurgical Congress

The Eleventh Commonwealth Mining and Metallurgical Congress will be held in Hong Kong from 6 to 12 May, 1978. The Congress will be organized by the Institution of Mining and Metallurgy at the request of the Council of Commonwealth Mining and Metallurgical Institutions. The First Circular, to be distributed in February, 1977, will give details of the proposed technical sessions, pre- and post-Congress tours to neighbouring countries and exhibition of mining and metallurgical plant and equipment.

All enquiries regarding the Eleventh Congress should be addressed to M. J. Jones, Secretary, Institution of Mining and Metallurgy, 44 Portland Place, London W1N 4BR, England

Corrigendum Notice

M. Okrusch, T. E. Bunch, H. Bank: Paragenesis and Petrogenesis of a Corundum-Bearing Marble at Hunza (Kashmir). *Mineralium Deposita* 11, 278-297 (1976).

1. In the caption of Fig. 1 read "slates" instead of "states".
2. Equation (5) which was misplaced on p. 292 should appear in the first paragraph of p. 293 where it should read:

"The equilibrium curve of the reaction (5) corundum + spinel + Mg-chlorite sapphirine + H₂O was bracketed by Seifert (1974) at"

G. Endlicher: Die syngenetischen Fluß- und Schwespatmineralisationen von Arlós und Villabona in Westasturien/Nordspanien. *Mineralium Deposita* 11, 329-351 (1976)
