

⁵¹ Translated by P. E. B. Jourdain under the title *Contributions to the Founding of the Theory of Transfinite Numbers*, Dover Publications, New York, 1955.

⁵² Accordingly, the replacements for the schematic \mathcal{A} may be any expressions that are well-formed in TN5 for homogeneous relations of all types as arguments. We have observed (p. 269) that these expressions go beyond those that are admitted as *type-neutral* predicates of homogeneous relations.

ERRATA

The Introduction and Part I of this article were published in this journal in Volume 9, No. 3, pp. 211–296.

On page 274, line 19, the reference to pp. 334–6 should read 400–2.

On page 295, Note 10, pp. 336–8 should read pp. 402–4.

On page 296, Note 31, p. 325 should read p. 391.
