

Announcement

2nd International Conference on "The Genetics of Diabetes Mellitus"

This congress will be held in Freiburg/Br., Germany (FRG) from April 9–11, 1981.

For further information, please contact:

Prof. Dr. med. J. Köbberling
Medizinische Universitätsklinik
Robert-Koch-Strasse 40
D-3400 Göttingen (FRG)

Preliminary programs may be requested from:

Serono Symposia
Goethestrasse 62
D-7800 Freiburg/Br. (FRG)

Note

The 11q;22q Translocation

It is planned a follow up of the collaborative study on this translocation (see "The 11q;22q translocation: a European collaborative analysis of 43 cases," Hum Genet 56:21–51 (1980)). Data needed are:

- 1—Pedigree with birth dates of relevant members.
- 2—Detailed description of the clinical picture plus photograph (if possible) of subjects with an unbalanced karyotype.
- 3—Karyotype or partial karyotype with estimated break points of the translocation.
- 4—Name and address of the contributor(s) and, when appropriate, of those whose help should be acknowledged.
All contributors will be co-authors of the paper.

The material should be mailed to: Prof. Jan Lindsten, Kliniskt Genetiska Laboratoriet, Karolinska Sjukhuset, S-10401 Stockholm 60, Sweden
