## Errata

### Expression of the *Saccharomyces cerevisiae* **RAD50** gene during meiosis: steady-state transcript levels rise and fall while steady-state protein levels remain constant

Wendy E. Raymond<sup>1</sup>, Nancy Kleckner

Department of Biochemistry and Molecular Biology, Harvard University, 7 Divinity Avenue, Cambridge, MA 02138, USA  
in: *Mol Gen Genet* (1993) 238:390–400

Unfortunately, due to a technical mishap, an error occurred in the title of the contribution on the first cover page. Instead of “Expression of the *Saccharomyces cerevisiae* **PAD50** gene during meiosis: steady-state transcript levels rise and fall while steady-state protein levels remain constant” it should have read “Expression of the *Saccharomyces cerevisiae* **RAD50** gene during meiosis: steady-state transcript levels rise and fall while steady-state protein levels remain constant”.

### The six genes of the Rubisco small subunit multigene family from *Mesembryanthemum crystallinum*, a facultative CAM plant

E. Jay DeRocher<sup>1</sup>, Françoise Quigley<sup>2</sup>, Régis Mache<sup>2</sup>, Hans J. Bohnert<sup>1,3</sup>

<sup>1</sup> Department of Molecular and Cellular Biology, The University of Arizona, Tucson, AZ 85721, USA

<sup>2</sup> Institut de Biologie Végétale, CNRS, Université de Grenoble, France

<sup>3</sup> Department of Biochemistry, The University of Arizona, Tucson, AZ 85721, USA

in: *Mol Gen Genet* (1993) 239:450–462

Database accession numbers for the sequences reported in this paper were inadvertently omitted from the published text. The gene sequences have been assigned the following accession numbers: L10212 (*rbc S-1*); L10213 (*rbc S-6*); L10214 (*rbc S-2*) and L10215 (*rbc S-3*, *rbc S-4*, *rbc S-5*).
